Selection of a Primary Care Provider - your plan may require or allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in the network and who is available to accept you or your family members. If your plan requires designation of a primary care provider, Cigna may designate one for you until you make this designation. For information on how to select a primary care provider, and for a list of the participating primary care providers, visit www.mycigna.com or contact customer service at the phone number listed on the back of your ID card. For children, you may designate a pediatrician as the primary care provider.

Direct Access to Obstetricians and Gynecologists - You do not need prior authorization from the plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, visit www.mycigna.com or contact customer service at the phone number listed on the back of your ID card.

Your coverage includes a health savings account that you can use to pay for eligible out-of-pocket expenses.

Pharmacy Program Information

Pharmacy Clinical Management: Essential

Your plan features drug management programs and edits to ensure safe prescribing, and access to medications proven to be the most reliable and cost effective for the medical condition, including:

- Prior authorization requirements
- Quantity limits, including maximum daily dose edits, quantity over time edits, duration of therapy edits, and dose optimization edits
- Age edits, and refill-too-soon edits
- Plan exclusion edits
- Your plan includes Specialty Drug Management features, such as prior authorization and quantity limits, to ensure the safe prescribing and access to specialty medications.
- For customers with complex conditions taking a specialty medication, we will offer Accredo Therapeutic Resource Centers (TRCs) to provide specialty medication and condition counseling. For customers taking a specialty medication not dispensed by Accredo, Cigna experts will offer this important specialty medication and condition counseling.

Patient Assurance Program

Your plan includes the Patient Assurance Program, which waives the deductible and reduces the amount you owe for certain medications used to treat chronic conditions included in the program. Additionally:

- Any amount you pay for these medications count toward meeting both your deductible and out-of-pocket maximum.
- Any discount provided by a pharmaceutical manufacturer for these medications count toward meeting both your deductible and out-of-pocket maximum.

Additional Information

Cigna Diabetes Prevention Program in collaboration with Omada

Cigna Diabetes Prevention Program in collaboration with Omada is a program to help you avoid the onset of diabetes, as well as health risks that might lead to heart disease or a stroke. The program is covered by your health plan at the preventive level, just like for your wellness visit. Program participants have access to a professional virtual health coach, an online support group, interactive lessons, and a smart-technology scale. The program will help you make small changes in your eating, activity, sleep, and stress to achieve healthy weight loss through a series of 16 weekly lessons and tools to help you maintain weight loss over time. You will also be offered the opportunity to join a gym for a low monthly fee and no enrollment fee.

Out-of-Network Emergency Services Charges

1. Emergency Services are covered at the In-Network cost-sharing level as required by applicable state or federal law if services are received from a non-participating (Out-of-Network) provider.
2. The allowable amount used to determine the Plan's benefit payment for covered Emergency Services rendered in an Out-of-Network Hospital, or by an Out-of-Network provider in an In-Network Hospital, is the amount agreed to by the Out-of-Network provider and Cigna, or as required by applicable state or federal law.

The member is responsible for applicable In-Network cost-sharing amounts (any deductible, copay or coinsurance). The member is not responsible for any charges that may be made in excess of the allowable amount. If the Out-of-Network provider bills you for an amount higher than the amount you owe as indicated on the Explanation of Benefits (EOB), contact Cigna Customer Service at the phone number on your ID card.
